NOTES:

1. The lighted indicators are the same as unlighted indicators specified by United Instruments' specifications; UI7000 and UI7100, except the light bezel and applicable light tray are installed instead of the non-lighting bezel.
2. The basic bezel lighted indicator is equipped with a plastic wedge with uncoated cover glass. The lighting bezel and light tray part numbers are BA3-006-003A and BA(VOLTAGE)-24T-BW3 of Bishop Aviation, respectively.
3. The lighted indicator with an HEA glass wedge is identified with a letter 'H' suffixed to the code number of the basic lighted indicators listed in the above table. The lighting bezel and light tray part numbers are BA3-006-003G-901 and BA(VOLTAGE)-24T-BW3G of Bishop Aviation, respectively.
